A bunch of passionate full-stack developers
creating software applications for web,
mobile & PC

About Us

- Pleximus has been in the industry since 2013 and has developed an outstanding reputation over the years, working with world renowned clients, in a bid to redefine the manner in which IT projects are carried out across our region.
- We go out of our way, making extra effort, in our bid to make project development much easier for our clients. Simply put, we make 'IT' effortless for them.
- Communication is the bedrock of our company, as we always work closely with our clients in order to assist them in strategizing business models and developing innovative ideas. The key is to give their businesses an extra edge over their competitors as well as making their product management easier.
- A team of 45-50 professional individuals and growing, our ultimate goal is to deliver flexible and scalable solutions along with active post delivery service.
